## BOURBON BARREL AGED BALTIC PORTER

Style: Baltic Porter

ABV: 8.5% IBUs: 32

To create this complex and full-bodied porter, we aged it in Cody Road Bourbon barrels from our friends at Mississippi Distilling Company. Their smaller barrels make for a greater surface area-to-beer ratio, and the results accentuate the inviting malt aroma and hints of dark caramel with prominent warming notes of bourbon and charred oak.

Sensory Description:

Caramelly malt aroma and flavor with notes of oak and whiskey. Full bodied and smooth with a hint of chocolate. Complex flavor layers of dark caramel and toasted malts. Mild hop bitterness. Finishes clean with warm alcoholic notes.

AVAILABILITY: Very Limited – Allocation Only
